## **DETAILED ACTION**

### ***Election/Restrictions***

Claims 88-103 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to nonelected Groups II and III, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 4/29/05.

Applicant's election with traverse of Group I, claims 80-87, in the reply filed on 4/29/05 is acknowledged.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 80-87 are rejected under 35 U.S.C. 102(b) as being anticipated by Townsend.

In regard to claims 80-86, the Townsend reference discloses an automated food "injection apparatus" (see Figure 1) as claimed. The introductory statement of intended use and all other functional statements (i.e., "adapted for") have been carefully considered but are deemed not to impose any structural limitations on the claims distinguishable over the Townsend device which is further capable of having cooked French fries fed on the conveyor and injected with a fluid. Whether the Townsend

Art Unit: 3751

apparatus was actually used in such a manner is dependent upon the performance or non-performance of a future act of use and not upon a particular structural relationship set forth in the claims.

In regard to claim 87, the apparatus comprises a "housing" 54 and an "injection nozzle" 130, as claimed.
